

Meter Specifications	
Display	3.3-inch monochrome LCD display
Overall dimensions	200mm*101mm*36mm
Weight	420g
Data storage	Supportable
Language	Chinese/English
Air pressure measurement	50~115kPa
Protection grade	IP67
Power supply	4 # No. 5 batteries (AA)
Relative humidity	10~85%RH (No condensation)
Operating ambient temperature	-10~60°C
Transportation and storage conditions	Temperature: -15~65°C Relative humidity: 5~85%RH. (No condensation)
Sensor Specifications	
Measuring principle	Method of fluorescence
Measuring range	Dissolved oxygen:0~20mg/L Saturation:0~200% Temperature:0~50°C
Accuracy	Dissolved Oxygen ± 0.3 mg/L Temperature ± 0.3 °C
Resolution	0.01mg/L; 0.01°C
Calibration mode	One or Two Point Calibration
